perixx

PROFESSIONAL

Perixx ist ein Hersteller von Peripheriegeräten mit Spezialisierung auf die Ein- und Ausgabegeräte Tastaturen und Mäuse und wurde 2006 in Düsseldorf, Deutschland gegründet.

Die Produktpalette der Perixx Tastaturen und Mäuse reicht von industriellen, professionellen Tastaturen über speziell designte Produkte für den privaten Gebrauch. Den wachsenden Bedürfnissen unserer Zeit versucht Perixx durch eine ständige Weiterentwicklung der Produkte gerecht zu werden. Eine sehr gute Funktionalität, ansprechendes Design und ein faires Preis Leistungs-Verhältnis definieren den Perixx Mehrwert.

Um eine hohe Qualität und ein einzigartiges Design der Produkte sicherzustellen, arbeitet Perixx nur mit den weltbesten Produzenten zur Entwicklung und Herstellung der Geräte zusammen.

Mit der PROFESSIONAL Linie bietet Perixx eine Vielzahl von Produkten an, die für die hohen Ansprüche Ihres Unternehmens geeignet sind. Der Produktkatalog ist ein Auszug aus dem Perixx Produktportfolio, die gesamten Artikel sind auf der Homepage perixx.com gelistet. Alle Perixx Tastaturen sind zudem in unterschiedlichen Länderlayouts verfügbar, für eine Übersicht kontaktieren Sie uns gerne.

TOUCHPAD KEYBOARD

Die Perixx Touchpad-Tastaturen bieten eine Variation von unterschiedlichen Formaten, von Super-Mini Format über Kompakt- bis Vollformat. Einige Modelle bieten eine Rückbeleuchtung der Tasten für Arbeiten in dunkleren Umgebungen. Somit sind die meisten der Touchpad Tastaturen für unzählige Anwendungsgebiete geeignet, von der Anwendung im 19“ Rack über den Einbau in Maschinen bis hin zum normalen Gebrauch im Büro.

TRACKBALL KEYBOARD

Ebenso wie die Touchpad Tastaturen bieten die verschiedenen Modelle der Trackball Tastaturen eine breite Auswahl an Formaten und Designs. Die Größe des Trackballs variiert je nach Modell von 14 bis 50 mm. Einige Modelle bieten eine Rückbeleuchtung der Tasten für Arbeiten in dunkleren Umgebungen. Für manche der Tastaturen sind Einzelmodule wie Trackball, Touchpad, Tastensatz und Motherboard separat erhältlich.

PROFESSIONAL KEYBOARD

Die professionellen Tastaturen sind für den anspruchsvollen Nutzer entworfen worden. Features wie eingebaute USB-Hubs, rückbeleuchtete Tasten, ergonomisches Design oder IP-Schutzgrade (Wasser -und Staubschutz) machen diese Tastaturen vielseitig einsetzbar.

KEYPAD

Die Perixx Nummernblöcke sind die ideale Ergänzung zur Mini- oder Kompakttasttur ohne Ziffernblock. Es sind zusätzlich zu den Standard-kabelgebundenen Modellen noch weitere Variationen verfügbar: mit 2x integrierten USB-Hubs, kabellos und rückbeleuchtet.

MOUSE

In der Auswahl der Perixx Mäuse finden Sie Mäuse für unterschiedliche Bedürfnisse. Zum Einen Mäuse ohne aufgedrucktes Logo für die Systemintegration, zum Anderen vertikale ergonomische Mäuse und anspruchsvollere Mäuse mit Software zum Einstellen von Funktionen.

PERIXX - established in 2006 in Düsseldorf, Germany - is a manufacturer of peripherals with focus on input devices, keyboards and mice.

The Perixx product portfolio ranges from industrial, professional keyboards and mice to specially designed products for the private user. Perixx strives to meet the various demands of customers and to enhance their user experience, by developing the products constantly. Great functionality, an appealing design combined with a fair price-value-ratio are the key factors that define the Perixx value.

In order to ensure high quality and unique design of the products, Perixx cooperates only with the world's premium manufacturers for product development and production.

With the PROFESSIONAL line displayed in this catalog, Perixx offers a wide range of products that are suitable for the highest demands of your business. The product catalog is an extract from the Perixx portfolio, the full range of articles is listed on the perixx.com homepage. All Perixx keyboards are available in different language layouts, please contact us for more information.

TOUCHPAD KEYBOARD

Perixx touchpad keyboards offer a variety of different formats: from super-mini format over compact size to full size format. The touchpad is either located at the bottom or at the right side of the keyboard. The touchpad keyboards are designed for various applications, from the application in the 19" rack up to the integration in machines or simple office use. Some models provide a backlit feature which makes them ideal for working in darker environments.

TRACKBALL KEYBOARD

The various models of the trackball keyboards offer a wide range of formats and designs. Different diameters of the trackball, from 14 mm to 50 mm, and diverse positions of the trackball ensure that you can find the suitable trackball to fit to your application. Some models provide a backlit feature which makes them ideal for working in darker environments. Individual modules such as trackball, touchpad, motherboard and key set are available for some models.

PROFESSIONAL KEYBOARD

The professional keyboards are designed for users with high demands. Features such as built-in USB hubs, LED backlit keys, an ergonomic design or IP certificates make this series qualified for the individual need of your business.

KEYPAD

Perixx numeric keypads are the ideal complement for mini or compact keyboards without numeric keypads. Additional to the wired standard keypads, there are variations such as with 2x USB Hubs, wireless or a backlit keypad.

MOUSE

In the mouse product line you can find a choice of right and left-handed, basic, advanced and ergonomic features: From basic unbranded mice for customized system integration, to ergonomic vertical mice and even more sophisticated mice with their own software for individual settings.
